**Re: Letter of Endorsement for Turtle Survival Alliance Canada (TSA Canada)**

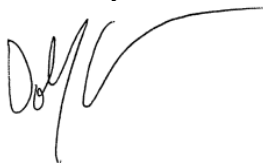

On behalf of the Toronto Zoo, we are pleased to offer this letter of endorsement for Turtle Survival Alliance Canada (TSA Canada). The Toronto Zoo has a long-standing experience and collaboration with the Turtle Survival Alliance and is now well aligned with TSA Canada to support conservation projects both in Canada and globally.

We are grateful to be recognized as one of TSA Canada's conservation friends and look forward to building a strong, impactful relationship together. Through this partnership, the Toronto Zoo and TSA Canada affirm a shared intention to collaborate on initiatives that advance turtle conservation. These initiatives may include joint field or research projects, collaborative disease and genomic studies, public outreach and education, and efforts to strengthen research capacity across Canada.

We are enthusiastic about what this collaboration can achieve. By combining the strengths of a leading Canadian conservation institution with the international reach and expertise of the Turtle Survival Alliance through TSA Canada, we believe this partnership can meaningfully advance the global protection, understanding, and long-term recovery of turtles.

We look forward to working closely with Turtle Survival Alliance Canada in service of this shared mission.

Sincerely,

Dolf DeJong  
Chief Executive Officer  
Toronto Zoo
